**Unexplored Canadian Land.**  
It is believed that nearly 30 per  
cent of Canada is still undiscovered,  
and if Indian reports are to be be-  
lieved, there is in the basin of the  
Mackenzie river one of the largest  
areas of possible oil-bearing earth  
on the face of the earth. The  
Indians report the existence of lakes  
a hundred miles and over that long in  
Yukon that no white man has ever  
seen, while even the Indians appar-  
ently know nothing of the as yet un-  
trodden Mackenzie mountains.
